PIONEER SILVER BELT IS BONANZAS TO BE REVIVED

(From Tuesday's Daily.)
DEAL CLOSED YESTERDAY FOR THE FAMOUS DOS ARIS, BUZZARD AND RAVEN; WORK TO BEGIN AT ONCE.

(From Tuesday's Daily.)

One of the most important mining deals ever closed in this field for the interest linked to early day doings when silver reigned as a standard metal, was that announced yesterday wherein the old Dos Oris went to J. R. Tomlinson, who represented an eastern syndicate. The Buzzard and the Raven, which are associated with the Dos Oris, all three being patented, and owned by R. H. Burmister, were included in this transaction. The examinations of the three had been recently made by competent mining engineers, and with data preserved from all in returns received from the mint and smelting works, with the attractive mineral possibilities in evidence for supporting their revival, there was little hesitancy in arriving at a favorable conclusion of the negotiations. Another factor in evidence on all three mines is the limited development given, which, when contrasted with an established production of over \$106,000 in two years of the Dos Oris, and \$30,000 during the time the Buzzard and Raven were operated, the inducement was flattering for capital to again step in and resume business, which is to begin at once. All three of the mines suspended as long ago as 1885, due mainly to company troubles in which litigation followed for years afterward. It is an old, but common saying that the richer the mine, the more the trouble, and the old Dos Oris is but an exemplification of this adage. It was rated in the long ago as the prince of silver mines, and justly sustained this reputation while it was active. The last sale to face it was for a one-quarter interest which sold for the sum of \$25,000. All three have remained dormant since 1885, except at occasional times when a chlorider made a small cleanup and could not face expenses incurred in actual or practical development to any depth whatever.

Under the new order modern machinery is to be placed in action at once, and a camp constructed. The reviving of this trinity of silver mines of old marks another advance in mines and mining and brings back memory that the old ones are the best after all, as is so emphatically demonstrated in the present era, as the pioneer properties are making bonanzas of the day. All the mines are only 14 miles from this city.

NEED FOODSTUFFS.
ZURICH, Feb. 7.—The Berlin correspondent of the Frankfurter Zeitung reports the organization of a syndicate for the purpose of bringing breadstuffs from Russia to Germany. It says the government will have a half-interest in the undertaking and the other half will be in the hands of large wholesale dealers. The grain will be delivered to the War Grain Department, which assumes all risks of transport and delivery. Similar syndicates are to be organized in Austria-Hungary, Bulgaria and Turkey.

MONUMENT FOR FRANCE

A NERVOUS WRECK
From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today.
